

Geometry Dash

It is a game that consists of a square that has to avoid obstacles and spikes to reach the end of the level.

Extra: In the levels there are coins in the different parts.

There are ***two game modes***:

- One player:** in which you have to pass several difficult levels created by the creator of the game.
- Multiplayer:** It is a mode in which you can create as well as play levels .You can make them and play them or you can play levels made by other people.
